MIRKA

Galaxy

The abrasive technology that's out of this world

Galaxy combines effectiveness with long life, thanks to a new self-sharpening ceramic grain, a clog-resistant coating, and the new Multifit™ hole configuration.

Galaxy is a multipurpose product, ideal for sanding both soft and hard materials and substrates. The ceramic grains are engineered to stay sharp by forming new abrasive edges when the grains break down during sanding.

KEY FEATURES:

- Self-Sharpening grains continue cutting – from edge to edge
- New, sharp grains form as you sand
- Lasting sharpness means a long life and a fast cut
- Clog resistant coating repels dust to keep grains free to cut
- Scratch pattern of finer grits polishes out easily

APPLICATIONS:

- Automotive Refinishing
- Composite Processing
- Construction & Decoration
- Marine Industry
- Woodworking

Technical Specifications

Grain	Ceramic/Aluminium oxide
Bonding	Low VOC resin system
Backing	Polyester film
Coating	Semi-open
Color	Blueish
Attachment	Grip and PSA

Recommended Accessories

915GV28	Backup Pad 5" 28H Grip
915SGV28	Backup Pad 5" 28H Grip, Soft
916GV48	Backup Pad 6" 48H Grip
916SGV48	Backup Pad 6" 48H Grip, Soft
9155	Interface Pad 5" x ⅜" 44H Grip
9166	Interface Pad 6" x ⅜" 67H Grip

Advantages of adding a compatible interface pad to the backup pad:

- Makes following surface shapes and contours easier
- Preserves the dust extraction properties
- Increases the flexibility of the abrasive and provides a more even finish
