

# Abranet<sup>®</sup> Ace HD

with ceramic grains makes heavy-duty work easy

The latest addition to the net abrasive family, Abranet<sup>®</sup> Ace HD, is durable and tough with ceramic grains. The strong net structure resists high wear and tear and the ceramic grain offers superior cutting performance on various surfaces. The improved woven mesh backing

increases the lifetime of the abrasive, and makes the sanding process faster. The open net construction in combination with a dust extractor enables a dust-free sanding experience. Abranet Ace HD comes in coarse grits: P40, P60 and P80.

## Technical specifications

<b>Bonding</b>	Resin over resin
<b>Grain</b>	Ceramic
<b>Coating</b>	Closed
<b>Colour</b>	Brownish
<b>Grit range</b>	P40–P80
<b>Backing</b>	PA-net

### Available as

- Discs
- Rolls

### Applications

- Paint stripping
- Various wood types
- Composites
- Metal
- Soft and resinous materials
