

Abranet Soft

Abranet Soft is a new type of sanding material primarily developed for levelling and structuring primers, top coats, gel coats and clear lacquer. It's intended for both hand and machine sanding. Abranet Soft is also suitable for pre-polishing lacquered surfaces. Coarser grits can be used for intermediate sanding by hand of lacquered wooden surfaces.

Abranet Soft consists of Mirka's patented effective sanding net and a thin foam layer. The foam layer makes the product steady and flexible, which ensures that the sanding material will easily follow the surface being sanded. Since dust collects in the foam layer during sanding, the result is a smooth surface finish.

- This product has been developed to minimise clogging.
- Abranet Soft in micro-grit sizes is best suited for wet sanding.
- The object being sanded must be dampened to obtain the best results when machine sanding. The open structure makes the product more flexible and the sanding result even.

TECHNICAL SPECIFICATIONS

Grain	Aluminium oxide	
Bonding	Resin	
Backing	PA-net/foam/velcro	
Coating	Closed	
Colour	Maroon	
Grit range	320, 500, 800, 1000, 1500, 2500	<i>discs 77 mm, 125 mm, 150 mm</i>
	1500, 2500	<i>discs 34 mm</i>
	320, 500, 800, 1000	<i>pads 115 x 140 mm</i>

ABOUT MIRKA

Mirka world-class products are manufactured in ultramodern production facilities by a professional workforce.

Over the past twenty years Mirka has grown into one of the world's largest producers of coated abrasives for the Automotive Refinishing Trade.

At the same time it has seen a dramatic rise in the sale of abrasives for the industrial surface finishing of wood, metal, and composite components.

Today we have a wide product range for individual operations and complete sanding systems for specialised applications. In addition to this, our product range includes various sanding accessories.

Our company philosophy can be described as striving for continuous improvements, systematic investments in quality, cost awareness, careful planning, the ability to take action and openness to unique solutions.

Our operations are certified to the ISO 9001 quality system and the ISO 14001 environmental management system. Mirka is also one of the first companies in Finland to have the Occupational health and safety management system certificate, OHSAS 18001.
