

## AVOMAX® ANTISTATIC

Developed as an all-round product for various wood sanding applications. The open coating makes the product especially efficient for sanding materials that clog easily.

The product works well for sanding soft materials and resinous wood types such as pinewood, while ensuring a long lifetime of the product and smooth surface finish.

The strong antistatic paper provides dimensionally accurate and reliable wide belts. Full resin bonding and aluminium oxide grain guarantee a very durable product.

Technical data	Avomax® Antistatic
Grain	Aluminium oxide
Colour	Maroon
Backing	Antistatic T-paper/F-paper
Bonding	Resin over resin
Grit range	P40, P60–P240, P320
Coating	Open
