## Coarse Sanding System

– Aggressive, fast and unique

**KWH Mirka Ltd**  
Jeppo, Finland  
sales@mirka.com  
[www.mirka.com](http://www.mirka.com)

Up to 2 x faster compared to the bench mark

The unique combination of a rotating pad and the durable Abranet Heavy Duty abrasive gives unbeaten fastness in the sanding process. The solution works perfect for various coarse sanding applications, e.g. paint removal.

### The system consists of:

Mirka® PS 1437  
Polisher

Dust Suction Hood  
for PS 1437 Polisher

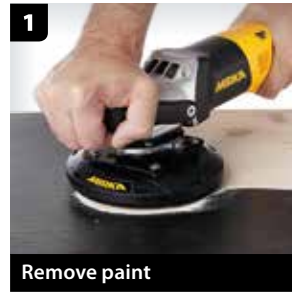

Backing Pad  
125 mm M14 Grip 17H  
for Suction Hood

Abranet® HD  
125 mm 17 H  
Grit range P40-P120  
Recommended: P60

### Paint removal process in two fast steps

Remove paint

- Mirka PS 1437  
(with hood and pad)
- + Abranet Heavy Duty P60

Smooth out the surface

- Mirka DEROS
- + Abranet P180

### Practical recommendations

- The sander becomes easier to handle when adding a 5 mm interface.
- The front part can be removed in order to get reach close by the wall.

### Abranet Heavy Duty

has been designed to meet the toughest sanding applications with high aggressivity and excellent resistance to edge wear. It is a great product when removing thick layers of paint with any kind of sander.
