

# Mirka® PROS Central Vacuum

The Mirka® PROS was specially developed to produce maximum dust extraction, even at low suction power, due to a wider dust suction outlet in the machine housing. Equipped with a new type of fleece dust bag with a larger dust collecting capacity and a longer life time compared other similar products on the market. This fleece dust bag does not require a safety nylon bag for protection as similar paper dust bags do.

## FEATURES AND BENEFITS:

- Easy to reach speed regulator
- Unique shroud system with brake seal for excellent dust extraction, even at low suction power
- Optimized ergonomics make it comfortable to grip for long operating periods
- Cover lifts for access to the air supply connection, locking the lever in the off position perfect dust extraction, even at low suction power.
- Mirka® PROS features fresh air channels leading to the center of the backing pad contributing to a increased air flow and therefore the dust is removed from the center.

PART NUMBER	DIAMETER	ORBIT	RPM	PAD FACE	WEIGHT	HP	SCFM	NOISE	VIB M/S 2
<b>MRP-550CV</b>	5"	5 mm	12,000	Multi-Hole Grip	2 lbs	0.28	17	74 dB	2.4

## ACCESSORIES:

- 915GV28**  
5" Multi-Hole Grip backup pad
- 916GV48**  
6" Multi-Hole Grip backup pad

Specially designed vacuum backing pads for optimal performance with Mirka® net or multi-hole abrasives.

**DE-1230-PC**  
30L Dust Extractor

- MV-412HA**  
1½" x 18'
- MV-HA33**  
1½" x 33' Coaxial Pneumatic / Vacuum Hose

**DE-1200PB**  
Pneumatic Control Box for DE-1230-PC Auto On/Off vacuum control for pneumatic sander

**MV-412DOK**  
Dual Operator Kit  
Allows use of two sanders with one DE-1230-PC dust extractor
