

Abrasive Sponges

Color-Coded Abrasive Sponges - Soft, flexible, and long-lasting

ADHESIVE: Synthetic

SIZE: 4" x 5" x 1/2"

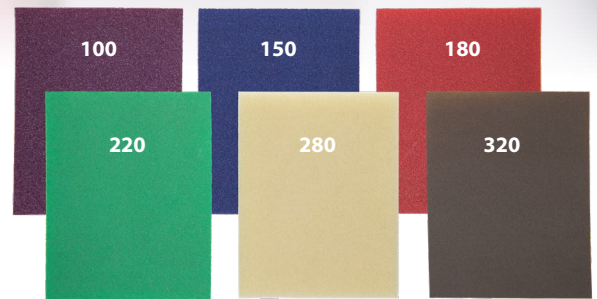

ABRASIVE GRIT: Aluminium Oxide

FEATURES AND BENEFITS:

- Soft and flexible for easy profile sanding
- Color-coded by grit
- Solvent-free technology - flexible resin based system
- Less grain shedding means longer lasting performance than conventional solvent 1/2" pads
- Increased tear resistance
- Very popular across all industries

APPLICATIONS:

Automotive • Woodworking • Marine • Construction & Decoration • Transportation

TECHNICAL SPECIFICATIONS

Type: Colored Polyurethane Foam

Density: 24 kgm - 3

Tear Strength: 125 Nm-1

Tensile Strength: 87 kPa

Part Number:	Grit:	Description:	Quantity: (PER BOX)
