

A man in a white long-sleeved shirt and white trousers is standing on a curved staircase, using a long-handled Mirka wall cleaning tool to clean a white wall. The tool has a yellow and black handle and a circular cleaning head. The staircase has a wooden handrail and metal balustrade. A large, ornate chandelier hangs from the ceiling. Two windows are visible, showing a view of a green lawn and a car. The overall scene is brightly lit, suggesting a clean and well-maintained interior.

# Mirka Solutions for Construction and Decoration

# Mirka Products for Construction & Decoration

Welcome to a new world of dust-free sanding solutions offered by Mirka.

### Mirka® DEROS

Ergonomic and lightweight electric sander for a multitude of sanding tasks.

### Mirka® DEOS 353CV and DEOS 343CV

Low profile and small size electric sanders are ideal for sanding profiles and hard-to-reach areas. They are the perfect solution for smooth and efficient sanding of wood, doors and frames.

### Mirka® LEROS and LEROS -S (short)

These tools are user friendly and unique brushless sanders with a 5 mm random orbital movement and a sanding head with 180° flexibility. **LEROS-S** is ideal for sanding in smaller rooms like bathrooms and walk-in wardrobes.

### Mirka® DEOS Delta 663CV

The Delta sander is ideal for precise and efficient sanding of corners, profiles, vertical and hard-to-reach areas at any angle.

### Mirka® Dust Extractors

Efficient dust extractors HEPA certified with AutoStart function for professional use.

### Mirka® Handy

For dust-free sanding of small surfaces and filler sanding by hand.

### Mirka accessories for dust-free sanding

A wide selection of genuine Mirka accessories is available to complement the company's extensive range of abrasives and tools. Boost your productivity and efficiency.

### Abranet® and Abranet® Ace HD

**Abranet®** – A net abrasive with thousands of holes providing a phenomenal dust extraction.

**Abranet® Ace HD** – High aggressivity and excellent resistance to edge wear, e.g. for removing thick layers of paint.

### Iridium

Premium paper abrasive for universal sanding. Perfected for speed and efficiency.

Dust extraction is optimised with multihole patterns for discs and strips.

## The Mirka solution: Paint removal

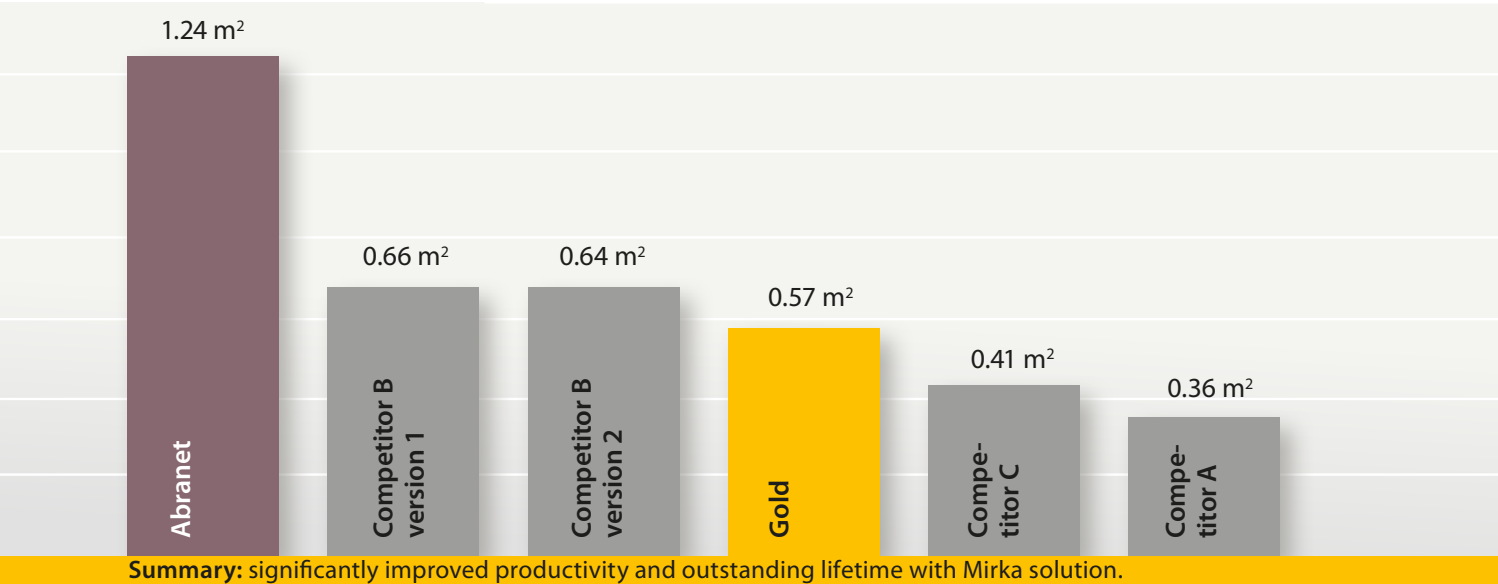

**TEST FACTS:**  
**LIFETIME & PRODUCTIVITY**  
Paint removal:  
Water based alkyd paint  
Grit: P80  
Tool: Mirka® DEROS 650CV  
Sanding pressure: ~ 4kg

Productivity test – sanded m<sup>2</sup> in 15 min grit P80

## The Mirka solution: Putty sanding

Mirka's net solution enables a much faster, but still clean, sanding. A common problem is that the fine dust is instantly clogging paper abrasives. The unique Abranet makes a proper cutting without clogging and lasts longer than the competitive products.

Don't let  
the dust haunt you

Take care of your health. Your most important asset is you. Enjoy your work!

Stock removal test on putty. Time sequence: 2 minutes

# Breathe in the new world

## Mirka health | Mirka dust-free solution ensures that the dust ends up in the dust extractor and not in your lungs.

**Mirka's net abrasive solution** is 99.97% effective at removing dust particles that are smaller than  $0.3\mu\text{m}$  in size compared to conventional dry sanding technology with extraction. Abranet is so efficient at removing sanding dust that it minimizes dust contamination at the workplace and creates a far safer environment.

The amount of dust in the air when machine sanding with Abranet is 6,900 times less than when sanding using traditional abrasives without dust extraction. Take your business where your customers expect you to be - top level quality that leaves them with a peace of mind.

**Mirka electric sanders** are unique, lightweight, and equipped with a compact design. The optimized ergonomics make it comfortable to grip and easy to use for long periods without fatigue, while the low-profile design gives a high maneuverability and helps deliver precise and efficient sanding performance. The high-efficiency brushless motor is powerful enough to maintain a constant speed under load. Mirka's electric tools have among the lowest vibration values on the market. Thanks to this property these power tools minimize the health risks related to vibration.

*Based on standardized measuring procedures and independent study.*
