## Mirka® DEROS & DEOS Features & Benefits

- DEROS tools are vacuum-ready random orbital electric sanders (110V)
- DEROS features a unique shroud system with brake seal providing improved dust extraction, even at low suction power
- DEOS tools are vacuum-ready orbital electric sanders (110V)
- DEOS features a low profile for easy maneuverability

## All electric sanders:

- 1" I.D. hose threaded vacuum fitting
- Brushless DC motor technology
- Comparable power of pneumatic tools - but lighter
- Quick connect fitting for the dust extraction hose
- Digitally controlled with variable speeds
- Pair with 'NET' abrasives for a dust-free experience
- Bluetooth connectivity pairs with myMirka App

## Pair Mirka electric sanders with 'NET' abrasives and MV-912 dust extractor for:

- Virtually Dust-free performance
- Longer abrasive and tool life
- Eliminates the frustration of dust clogging the abrasive
- Eliminates problems from over sanding
- Reduces clean up time
- Healthier environment for the user
- Dust-free system provides a better view of the sanding surface
